Customer Reviews

I received my book yesterday. I LOVE it! I thought it would be mostly pretty pictures like the other Farrow and Ball books but this one is actually very instructional. They have a list of which white goes with each color, using neutrals and different ways to get different affects, like by painting woodwork and trim the same color as your walls. I highly recommend this book for the beginner or seasoned designer.

It's a good book with a lot of theory but I was mainly interested in before and after and lots of how-to's - in other words tons of photos. For this reason I would not recommend it if you're looking for a lot of visual. It is a beautiful book though and if you like learning the how's and they why's this one is for you.

Not what I anticipated, but color beautiful

Gorgeous book with useful tips & photos.

I haven't fully dove into this book but so far it seems like a very thoughtful guide to color and use of depth.
