# Programmable Logic Controllers (2nd Edition)

## Synopsis

This outstanding book for programmable logic controllers focuses on the theory and operation of PLC systems with an emphasis on program analysis and development. The book is written in easy-to-read and understandable language with many crisp illustrations and many practical examples. It describes the PLC instructions for the Allen-Bradley PLC 5, SLC 500, and Logix processors with an emphasis on the SLC 500 system using numerous figures, tables, and example problems. New to this edition are two column and four-color interior design that improves readability and figure placement and all the chapter questions and problems are listed in one convenient location in Appendix D with page locations for all chapter references in the questions and problems. This book describes the technology so that readers can learn PLCs with no previous experience in PLCs or discrete and analog system control.

## Book Information

Hardcover: 624 pages

Publisher: Pearson; 2 edition (August 27, 2008)

Language: English

ISBN-10: 0135048818

ISBN-13: 978-0135048818

Product Dimensions: 8.4 x 1.1 x 11 inches

Shipping Weight: 3.2 pounds (View shipping rates and policies)

Average Customer Review: 4.1 out of 5 stars See all reviews (8 customer reviews)

Best Sellers Rank: #160,299 in Books (See Top 100 in Books) #11 in Books > Engineering & Transportation > Engineering > Electrical & Electronics > Circuits > Logic #119 in Books > Engineering & Transportation > Engineering > Industrial, Manufacturing & Operational Systems > Robotics & Automation #279 in Books > Engineering & Transportation > Engineering > Electrical & Electronics > Electronics

## Customer Reviews

This is not a bad book but it not great. Some of the chapters can be long and not get to the point. The glossary could use some work to(not a lot of vocab). Many times I just good to YOUTUBE to get better explanation of related material. This book should have been a lot better but it was not. The only reason I brought this book because it was require for class.

This book arrived well within the promised period of time and was in very nice condition. The

material is a bit dry but no one reads a text book for the humor.

Never ended up using this.

Great book!
