Practice Scenarios

Prepare for challenges in the field
and the assessment center.

Deputy Chief Frank Viscuso

Synopsis

Practice Scenarios was developed to help prepare dedicated firefighters of all ranks to handle problems and challenges in four major areas: Fire Incidents (structure Fires, outdoor fires, vehicle fires), Non-Fire Incidents (hazardous materials, collapse, vehicle accidents, compounded incidents), Supervision and management (dealing with subordinate problems such as insubordination), and Administrative tasks (creating community relations programs, SOPs, department policies, etc). The book is especially helpful for individuals who are preparing for career advancement examinations and interviews. For each of the four areas you will be introduced to helpful formats and fireproof tips that will give you an edge and help elevate your situational and scenario awareness.

Customer Reviews

Good promotional practice scenarios but geared more towards a chief and managing an entire incident than a lower level officer. Good breakdown of things to think about after practicing out loud. Well worth the money.

Great Book! I Got alot of use out of it!

Excellent source of information and test review materials. The author puts it into perspective and highlights the skills points needed to excel with any promotional opportunity.

Because of that aspect I took one star away. But It's worth buying the digital copy, for sure.....

Good examples of possible questions. I was dissapointed by the lack of answers/explanations to the scenarios.
