

Microsoft Word 2013 Introduction Quick Reference Guide (Cheat Sheet Of Instructions, Tips & Shortcuts - Laminated Card)

Word 2013 Introduction

Need to know general things that apply to all Office products (the copying and pasting, files, or how to undo a mistake) see the Office 2013 Essentials guide.

Margins, Orientation, and Paper Size

Choose PAGE LAYOUT, then:

- To change space between the edge of the page and the main text area, click MARGINS, select a preset margin width, or choose CUSTOM MARGINS to specify one.
- To change space between vertical and horizontal page orientation, click ORIENTATION, then FRONT or LANDSCAPE.
- To change the paper size, click SIZE, click a standard paper size, the CUSTOMIZE, choose MORE PAPERS, then.

Moving or Copying Text with Cut, Copy, Paste

- Select the text to move or copy, either by dragging across text, using a virtual text box, or pressing **Ctrl** to select multiple areas.
- Choose **COPY**, then **Ctrl** or **Cmd**.
- Ctrl** or **Cmd** or use movement keys to place the cursor at the new location, then choose **PASTE**. Or for options such as Keep Source Formatting, **Ctrl** or **Cmd** plus one of the PASTE OPTIONS.

Formatting Text with the Mini Toolbar & Touch Modifier

In addition to the formatting options on the **HOME** tab, you can use the Mini Toolbar for the most common formatting options. The Mini Toolbar conveniently appears next to your text, to show:

- Select text with a mouse.
- Drag text left.
- Click selected text to show the Touch Modifier.

The Touch Modifier also includes **Copy**/**Paste** and a drop-down menu of common commands.

Spacing between Paragraphs

By default, space is added after every paragraph. To start a new line without starting a new paragraph, create a new line, press **Ctrl** or **Cmd**.

To remove or add paragraph spacing:

- Select the text.
- Choose **HOME**, then REMOVE SPACING BEFORE PARS (B) or ADD SPACING AFTER PARAGRAPHS (A).

Creating Bulleted Lists

- Select the paragraphs.
- Choose **HOME**, then **BULLETS**.
- Click the paragraph by typing an **A** followed by the type system, then press **Enter** or **Tab**.

Typing... Create a hanging indent with...

Changing Bullet Style

- Select the bulleted paragraphs.
- Choose **HOME**, then the dropdown arrow of **BULLETS**.
- Select a bullet symbol, click the different symbol, choose **DEFINE NEW BULLET** (D) or **REMOVE** (R) to choose a new symbol, **PICTURE** to use a picture, or **IMAGE** to change color and other attributes, **CLICK** ON THE BAR.

Creating Numbered Lists

- Select the paragraph(s).
- Choose **HOME**, then **NUMBERING**.
- Select a different numbering style, **CLICK** the **More Numbering Options** (M).

Turning off Bullets or Numbering

- Select the paragraph(s) with bullets or numbers.
- Choose **HOME**, then **BULLETS** or **NUMBERING**.

Changing Paragraph Alignment

- Select the paragraph(s) to change.
- Choose **HOME**, then one of **LEFT**, **RIGHT**, **CENTER**, or **JUSTIFY**.

Displaying Formatting Symbols

Show or hide spaces, paragraph marks, tabs and other non-printing characters.

Choose **HOME**, then **SHOW** or press **Ctrl** or **Cmd**.

Copying Formatting With Format Painter

- Select the text with formatting you wish to copy. To copy paragraph formatting such as alignment and spacing, ensure you select the entire paragraph.
- Choose **HOME**, then **FORMAT PAINTER** (F) or apply the format area. Or, to apply the format multiple times, Enable **Click** of **FORMAT PAINTER**.
- Select the text to be formatted.
- If applying the format twice, press **Ctrl** or **Cmd** the **Format Painter** on button again when formatted.
- Press **Esc** to stop **FORMAT PAINTER**.

Searching Using the Navigation Pane

- Choose **HOME**, then **NAVIGATION PANE** (N) or press **Ctrl** or **Cmd**.
- In the Navigation pane at the left, type the text you wish to search for.
- To find objects such as graphics or tables, **CLICK** the drop-down of the field then select.
- To show results in the Navigation Pane with a snippet of paragraph text, **CLICK** **RESULTS**.
- CLICK** a result, Or, to go to the production result, **CLICK** **GO TO**.
- To show the results, **CLICK** **SEARCH** (S) in the SEARCH DOCUMENT TAB, or press **Ctrl** or **Cmd**.
- To show the Navigation Pane, **CLICK** **NAVIGATION PANE** (N) in the top right corner of the Navigation Pane.

Finding and Replacing Text

- Choose **HOME**, then **REPLACE** (R) or press **Ctrl** or **Cmd**.
- In the **FIND WHAT** field, enter the text to search for. Use the drop-down menu to select a pasting style.
- In the **REPLACE WITH** field, enter text to replace the found text.
- To see each match, **CLICK** **FIND NEXT**. Then to replace the match, **CLICK** **REPLACE**, or to stop, **CLICK** **FIND NEXT**. To replace all matches, **CLICK** **REPLACE ALL** (A) or **CLICK** **GLOBAL**.

Jumping to Other Pages

Press **F5**, the page number, then **Enter** or **Tab**.

- To open the Navigation Pane, choose **HOME**, then **NAVIGATION PANE** (N), or **Ctrl** or **Cmd** in the status bar, or press **Ctrl** or **Cmd**.
- CLICK** PAGES, then a page.

Recurring Reading

Word keeps track of your place when resuming a document you were previously reading or editing. To return to where you left off, **CLICK** the **RECALL** button, message or **Ctrl** or **Cmd** to display the message.

Touch Actions

Click/Double-Click	Tap/Double Tap
Scroll	Drag or Swipe
Select/Text	Tap, Drag, or
Right-Click menu	Touch and hold for text
Touch Modifier	Tap touch modifier, then tap again. Or, touch and hold for text. Tap drop-down arrow to see more options.

To improve your touch experience, turn on the touch-enhancement feature and control the same buttons change to manual.

In **Settings** App, touch **Settings**, then **TOUCH**.

Text Selection Shortcuts

A word	Double-Click the word
A sentence	Ctrl or Cmd in the sentence
A line	Ctrl or Cmd in the left margin
A paragraph	Double-Click in the left margin Or, Triple-Click in the paragraph Or, Triple-Click or Ctrl or Cmd in the left margin

Customer Reviews

This is a review of the Quick sheets available for various Microsoft programs. I purchased 7 of them for the following: Powerpoint 2013, Excel 2013, Windows 8, Office 365, Word 2013, Outlook 2013, IE 10. They all come laminated. Some are dual sided and a few are multiple pages. The same company makes all 7. Now on to the usefulness of them. They are great cheat sheets. The information is on the basic side...but sometimes that is what you need. These can be useful to a user of any skill set. I have years of experience with all of the above products. However, I retired young at 55 a few years back and have only used my iOS and OX. I have spent the last four years totally away from the Microsoft family of products. Sure most of what is in these can be found in the help menu etc..... but if you want to use all 27 inches of your screen real estate to view the program and do not have a secondary monitor these are well worth the cheap price. All 7 of these cost me around \$20. I am sure within a few months they will not be needed but for now Thank you very much.

Great idea. All the information that you need in one place and easy to access. Great for a college student with limited time.

This is a very helpful product to someone like myself who is not a computer whiz but enjoys writing on the computer. I give it a 10.

This beats having to look thru a whole book for a quick answer. This is the best quick guide I have found.

I bought this for assistance while taking an online class that went through learning Word more in depth (see book Microsoft Word 2013 by Cengage). That book is actually really detailed. I already had some basic to intermediate knowledge of Word, just based on use for writing papers and such. I bought this cheat sheet since the class was going to go more in depth, and I thought it might have been beneficial. Well, I never looked at the cheat sheet because the book had it all. I think this would be a good sheet for someone that is very new to Word, and wants some quick reference help. Otherwise, if you are wanting to do more with Word, and learn its capabilities, I would suggest buying that book. It's so detailed, you don't even need a class to learn the different tasks in it. I might even buy it to have it for future reference. Bottom line, if you already have some basic knowledge of Word, you probably won't need this, but for the price, it was worth checking out. *one note: this sheet is VERY high quality and double sided.

Great summary or "cheat sheet" for Word 2013. I am not very skilled in the ins and outs of Word, so having this handy when I ran into a problem has been a life-saver on several occasions. Easy to use and especially to navigate to the answer you need.. Highly recommended.

I got this quick reference card for MS Word, As I am transitioning from Corel WoWordPerfect to this application. My only suggestion would be if there was some means of standing it up, because at my workstation there is no place to hang it near the monitor.

This is a plastic-coated 8.5" x 11" double-sided sheet of helpful tips to this over-elaborate version of Word. MS made heavy use of icons on the toolbars, leaving us to guess which icon goes with which action--this QRG points to many of those connections. Beezix did about as well as possible on 1 sheet--but 1 sheet does not fully cover the ground!
