This book is comprised exclusively of keto recipes. For advice or further information on ketogenic diet, anyone will have to refer elsewhere. There are a wide variety of recipes. The ingredients for a meal are divided into two parts; "ingredients"™ and "essentials"™. Essentials are common ingredients found in the kitchen such as salt, sugar, olive oil etc. While "ingredients"™ are the less common ones. So when the title says "6 ingredients or less" • it speaks of the less common "ingredients"™ and not the essentials. For some recipes there are also suggestions for substitute ingredients in case someone is allergic to one of the required ingredients. Also number of servings, preparation time, nutrition facts and cooking time, are also included for further ease.

This is a great helpful guide about ketogenic diet. Just by the looks of it, it's really delicious so you would never thought you're in a diet. This book is really worth the price given that it is written in a very friendly and engaging manner! Use the seven-day plan and I really like their delicious recipes, plus they are very healthy. This book offers so many recipes for a Ketogenic-filled lifestyle that you can choose from. I found this book very helpful to me because I'm always struggling maintaining my Great book on Ketogenic diet foods - this will give you a step by step guide. In this book you will learn how to make a lot of ketogenic recipes that is good for burning fats and keeping our body healthy. Overall, I highly recommended.

These low carb recipes are tried and true favorites at our house, and perfect for a ketogenic diet

plan. If you are an "on the fly" cook like I am, you'll find yourself improvising and adding your own touches to make these recipes into your own creations. Feel free to experiment and come up with new variations, but make sure to adjust the carb, calorie and protein counts along with any changes you make. Since the process of keto adaptation isn't necessarily a straight forward, I found the book very helpful. I'd definitely consider reading it if the ketogenic diet appeals to you.

Loved the book... Awesome pictures and the recipes are very easy to prepare. The cookbook is very nicely cut out and makes sense the way the book recipes are laid out. I really liked the way the recipes are accompanied by pictures of the same. Wish the cookbook was longer!!

Finally! I got this kind of Ketogenic cookbook! I got more than what I paid for because this book made me feel blessed. I've read many Ketogenic diet books and this one is one of the best ones I've read. It's full of tasty recipes and what I like about it is that this book has recipes that contain only 6 ingredients. All I had to do was make sure that every meal I ate was a recipe out of this book and I was in a state of Ketosis at no time at all. I really love how this book organizes its information, and I love the ease of the recipes. Thus, I'm giving this book 5 stars for being an excellent Ketogenic diet book with solid recipes and well-organized information!
