Customer Reviews

This cook book includes recipes for sit down family meals, light soups that could be used as quick

lunches or appetizers, and smoothies for on-the-go or a sweet treat. ALL of these could be made in family sized portions and frozen in individual portions to suit the singleton's need. I have made parmesan crusted zucchini, chickpea soup, and a couple creamy delight smoothies. For the smoothie I used cheap, easy, frozen ingredients, but I got my veggies and spices from a locally owned Pacific grocery store. As much as I liked the recipes, I feel like there are options that can please families with picky eaters as well. It's a fun way to SUPER SHRED in time for bikini season.

I bought this book not just to shred extra pounds, but also bring healthy and tasty food for my family. Everyday, I've been struggling on what to cook for them. I don't have time to search for different recipes over the internet. Super Shred Diet Recipes made my life easier. Now I can bring delicious and healthy food to the table. My husband likes it and always get compliments from him. My daughter likes the smoothies and always ask me to make it every snack time. I don't mind making it everyday because it is good for her and very easy to prepare. This book offers mouth watering recipes and guess what, it doesn't cost a lot to make it. Highly recommendable to all the moms like me who cook food everyday for their family and are always conscious in their health.

I am a big fan of smoothies because they are healthy. I have tried these Super Shred Diet Recipes and I have to say, they are amazing! The foods don't even taste like you're on a diet and I have already lost a few pounds. I highly recommend this book to others looking to drop pounds without giving up yummy tasting foods.

If your current diet doesn't give you the results you want, then the super shred diet is worth trying. It's not complicated at all which is good for beginners and you can start with it right away. Aside from recipes, it also comes with an exercise plan to really help you reap the benefits of this diet. It's the perfect combination to get that body you've always wanted.

I am so happy I purchased Super Shred Diet recipes. I prepare all of my meals at home for a family of 4. I often run out of healthy ideas that are easy to prepare and healthy at the same time. With summer just around the bend, I also want to eat meals that will trim my waistline and make me a healthier individual overall. As soon as I began reading Super Shred Diet Recipes, I noticed how easy it was to follow the directions. The ingredients aren't complicated and I could put these

meals together without spending an hour looking for some rare item in the grocery store. The meals are also easy and fast to prepare. I particularly enjoyed creating the smoothies listed in this ebook. I do not have the imagination or skill to blend things together and have it taste awesome. This ebook solved my problem and I was able to create healthy smoothies that were pleasant to the taste. Even my toddler loved them. I am so excited to follow this diet for the full four recommended weeks. I already feel the progress by starting the first goal set forward in this book and have lost 2 pounds already! This book is so practical because it provides all the meal plans, and the guide to how to lose my extra pounds in a healthy and successful manner. It was worth every penny I spent on it.

If you are doing the Super Shred diet, this is a good companion. I am not all that great at figuring out menus, but having this cookbook is a big help. Most of the recipes are pretty easy.
