Customer Reviews

I bought this book for a class that I am taking. So far it has lots and lots of details about the interface for Windows XP Service Pack 2. If you need or want this information, then this is a good book for you. If you are an intermediate or advanced user, avoid this book like the plague. Reading about how to move the mouse pointer and how to copy files will bore you to tears.

Necessary textbook for college class. Comprehensive overview of Windows XP. Helpful pictures and diagrams. Great way to purchase a textbook!

ordered for someone else, so guess it was alright

Good Lord!!! It was very professional. Fast delivery. Above all! the package didn't even destroy the

content. I super like it. So, you there, don't even think much. Buy now.
