Shakespeare In The Garden

Synopsis

Glorious images of gardens and the words of the immortal Bard of Avon make an enchanting combination in *Shakespeare in the Garden*. Mick Hales, one of the world's preeminent landscape photographers, captures unforgettable images of 14 gardens in England, the United States, and Canada, including Shakespeare's own gardens as well as the three great restorations of major Elizabethan properties by the Dowager Countess of Salisbury. Hales's accompanying text sets the scene, with notes on the provenance of each exquisite site. There is also an Illustrated Alphabet of Plants, a unique visual document of 80 flowers, herbs, shrubs, and trees that Shakespeare mentions in his plays, each accompanied by a corresponding quotation. Rare is the illustrated book that can enhance the power of Shakespeare's poetry, but this one succeeds masterfully.

Book Information

Hardcover: 144 pages

Publisher: Harry N. Abrams, Inc. (September 1, 2006)

Language: English

ISBN-10: 0810957167

ISBN-13: 978-0810957169

Product Dimensions: 9.9 x 0.8 x 10 inches

Shipping Weight: 2.4 pounds

Customer Reviews

When you purchase a book online, one that you are buying for the photographs, you are taking a risk that it will not meet your expectations. Rest assured that THIS book is one that is what you expect it to be and beyond. Not only are the photographs of the gardens beautiful, but most helpful, and unexpected, is the index of plants mentioned in Shakespeare's plays and poetry and the actual quotes themselves. A page is dedicated to each plant or tree. You won't go wrong in purchasing this beautiful and useful book.

The pictures of Shakespeare gardens in the United State and England are lovely and inspiring. I was disappointed that the garden at the Huntington Library in San Marino, CA was not included, as it was the first such garden I ever visited, but that is just a personal observation. The section on plants that are typically used in a Shakespeare garden was very helpful and I am using the entire book to plot out a tiny garden in my back yard.

Oh, the British... can't cook... but they sure can GARDEN! Just when you thought Shakespeare's been overexposed ad nauseum et infinitum, you learn some surprising 'new' facts about his life that... that... wait for it... has nothing to do with a drop of ink from his plume (not directly, anyway). Amazingly, these plants are still here. TODAY!As William the Bard would have written, "Wow!" or "Woweth!"Definitely worth another trip to London.

Both the photography and information are great. The contents gave me more substance than I expected. I would recommend this book to anyone interested in historical gardens.
