Customer Reviews

Honeymoon Ideas is a great guide that gives you oodles of tips and tricks to ensure your honeymoon goes off without too many hitches. I like the fact there are lots of different locations briefly discussed. Giving you just enough information to warrant further investigation or not. I never had a book like this when I planned my honeymoon. Perhaps that's one reason it's over?? lol There's something in here for everyone. See for yourself!

I wasn't able to afford a honeymoon when I got married but my husband and I would like to take a trip now, as a late honeymoon. I am so glad that I decided to check this book out, it gives you great alternatives to the typical location, that will not only save you money but get you the same if not better experience. I am very excited to start looking more into these new locations

This book gave me some great ideas for a special honeymoon. I had just figured we would go to Mexico or Hawaii and lay on the beach for a few days, but now I'm seriously considering someplace really special in Asia or Australia.
